## About Me

Started programming at the age of 15 with QBasic and mIRC scripts. A few years later, a car hit me and I thrived for justice as criminal lawyer. Now, I'm on my way to becoming what I was meant to be... A developer!

## Experience

### Lawyer 2009-23

Owner

Having my own firm made me gain experience in business handling, negotiation and solving problems for many clients.

### Social Assistance Reference Center 2018-20

Supervisor

Supervised teams with agile methods, and helped to implement a new software for more than 50,000 customers.

### Tigrelog 2006-11

Full stack engineer

An online community made entirely by/to soccer passionates, we had over 15,000 people discussing in our forums and blogs, all maintained by myself and a couple other volunteers.
